** ARGENTINA [non]. 9455, Tue Jan 13 at 2302, WRMI with RAE relay in Portuguese already underway in `Atualidade DX` pgm, again with suspiciously old ``news``-- 11905 SLBC off air, but still 11750; Manuel Méndez, Spain, logs of Denmark on 5970, 1440, 25800; Norway 5895, Tajikistan 4765, which might pass as current but get this: Vanuatu on 3 x 3945, 11835!!! That`s been fixed years ago. Then an admittedly Oct 22 to Mar 23 schedule for Spain from Glenn Hauser!!! Anything correct there now is purely coincidental; then Malawi not on SW but FM as I tuned out. Arnaldo Slaen is always credited as provider of the DX news, altho I did not hear open or close this week mentioning him. I`m notifying him directly about this. So is RAE sending out 3+ year old programs, or is just letting WRMI play 3+ year-old files week after week? I`ve looked before and look again at the files in WRMI server and do not find anything old or new from RAE, so they must be getting them somehow else; or with unrecognizable filenames. In any event, `Don`t You Believe` any DX `news` from RAE; and how about in their other languages? (Glenn Hauser, OK, WOR)

** BRAZIL. 6180, Sat Jan 10 at 0757, S8/S9 of dead air; 11780 starts music at 0758 and then // also on stronger 6180. So RNA apparently just starting up in the morning (Glenn Hauser, OK, WOR)

** BRAZIL. 6180, Mon Jan 12 at 0753, tokEnglish from RNA underway about a singer from Belém do Pará. 0754 switch to Spanish with heavy Brasilian accent, singer named Pinduca? S9+20/30 here, only S9 on 11780 (Glenn Hauser, OK, WOR)

** CANADA. 6070, Jan 14 at 0317, no signal from CFRX; maybe degraded propagation, tho furthers like 6105 FRANCE are normally loud. Or maybe off but CFRX is always at least weakly audible over night path. It is definitely on at next check 0725 (Glenn Hauser, OK, WOR)

** CHINA. 6000, Friday Jan 9 at 0810, algo JBA. Surely not Cuba by now, but as in EiBi CNR1 Beijing at 0800-0900 daily except Tuesdays (Glenn Hauser, OK, WOR)

** CHINA. 9535, Jan 14 at 1541, S Asian music S6/S8. It`s CRI in Nepali this hour, 500 kW at 252 degrees from Xi`an site. Among some other less exotic CRIs like 9660, which is Chinese via Kunming site at 20 degrees really thisaway (Glenn Hauser, OK, WOR)

** CUBA. 5025, Jan 8 at 0724, R. Rebelde off again; something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11880, Jan 9 at 0814, S7 open carrier, maybe some howl. Surely RHC failed to turn off much earlier. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Jan 10 at 0223, S9+25 of deadair, the SSOB if not the OSOB. Seems a bit of windhowl too, but have to be careful, as local TVI on certain frequencies sounds much like that transmitted by RHC. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, Jan 11 at 0355, RHC Spanish VG S9+20; nothing on 6000 (Glenn Hauser, OK, WOR)

** CUBA. 9710, Jan 12 at 0534, S7/9+10 of dead air direct, no doubt RHC where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 15140, Jan 12 at 1955, RHC Kriyol is JBA under louder windhowl on S9 signal direct, but clear on // 11760 also S9. Both abruptly stop modulating at 1956 before the program really closes. Then into Georgia SDR from 1959, 15140 is S9+25 with windhowl only,

11760, S9+5/20 dead and clear past 2004, and NO ENGLISH as supposedly scheduled from 2000. Something`s always wrong at RHC. The same thing happens repeatedly as if on an automatic timer (Glenn Hauser, OK, WOR)

** CUBA [and non]. 15230, Jan 13 at 1515, harmonica music from RHC, undermodulated S8. Also // 15140 S9+20 plus SAWA windhowl, 11760 S8/S9 undermod. 11880 JBA carrier, probably something else: TWR Swaziland in Somali (Glenn Hauser, OK, WOR)

** CUBA. 11760, Jan 13 at 2315, S9+10/20 of windhowl only from RHC where something` always wrong (Glenn Hauser, OK, WOR)

** CUBA. 6000, Jan 14 at 0317, S9+45 of dead air from RHC, where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA [non]. 9820, Jan 11 at 0355, S9/+10 bit of song sounds English, so could it be R. Martí on their latest frequency? Yes, // much stronger 7355 & 7435 and 0356 introducing a periodista; also 6030 (Glenn Hauser, OK, WOR)

** EL SALVADOR [and non]. 28460 USB, Jan 13 at 2300, not manysigs on 10m, but here`s a QSO, first in Spanish between YS1ZZ on the Pacific coast, and PU5WMA in Brasil. But YS says English is OK altho his original language is German. QRZ.com: ``YS1ZZ El Salvador flag El Salvador, Markus Paul Pfiffner, Club Atami, La Libertad, El Salvador``

``PU5WMA Brazil flag Brazil, Marcelo Arthur Mendes Waechter, Rua Marechal Rondon, 5051, Cascavel, PR 85813720, Brazil`` (Glenn Hauser, OK, WOR)

** INTERNATIONAL VACUUM [non]. Re WBCQ`s ``Laser Broadcasting``, WTF,K? ``535 nm = green laser light = about 560 THz with the usual wavelength<-->frequency conversion. -- Richard Langley`` (Glenn Hauser, OK, WOR)

** IRAN [non]. 13754.986, Jan 10 at 1635, R. Farda reactivated, S8/9+10 into UTwente. From FB, Alex Miatlikov got this schedule, all via UAE site, which correlates with typical offfrequenciness:

"Radio Farda is restarting on Saturday as follows:
0530-0800 15430
0800-1200 15110
1200-1500 15310
1500-1700 13755"

https://www.facebook.com/groups/wrthgroup/posts/10164502019643698/

All via Dhabbaya, the UAE, 250 kW, 35 degrees

https://new.hfcc.org/data/schedbybrc.php?seas=B25&broadc=ENC

No jamming audible, and IIRC, strangely enough, Iran did not bother to jam the original R. Farda. Richard Langley noted two carriers until 1414, jamming now? Nothing else scheduled. ``There are two carriers. One at 15310 -0.8 Hz and a stronger one at +150 Hz or so.`` (Glenn Hauser, OK, WOR)

** IRAN [and non]. I have not heard R. Farda again, but follow-ups:

``The announcement on the Radio Farda website about returning to SW: https://www.radiofarda.com/a/33644714.html

Firefox translates headline to: "Reboot short waves to hear the sound

of tomorrow's radio in Iran" (Farda = Tomorrow). -- Richard Langley``

``So according to info on this Web page, translating from Persian and converting from local times listed to UTC, the schedule reads:

12005 04:00-05:00
15430 05:00-08:00
15110 08:00-12:00
15310 12:00-14:00
13755 14:00-16:00
12005 16:00-17:00

Alan Holder, G4ZBH
Isle of Wight, U.K.``

``The familiar sound of the Iranian bubble jammers was observed at my location today on 15430 kHz at 09:10 UTC, long after Farda had signed off this frequency. Was gone when I checked again at 09:30.

15110 kHz is noted at 10:22 with heterodyne (carrier on 15109.85 which is subject to frequent breaks of a few seconds at a time). They seem to be having trouble in keeping the jammer on the air. The bubbling sound was noted starting just before 10:30 UTC. The signal was Dhabayya, is weak here in the U.K. so the 35 degree antenna must be highly directional.

Back in the late 1990s a number of low power transmitters (10/20/50 kW) were installed at the Kamalabad site, presumably for jamming purposes. The last time I heard the Iranian bubble jammers on HF was in 2013 aimed at blocking Israel's Persian service. I expect that the jamming equipment is kept in standby, but probably needs some maintenance.

Farda on HF was never jammed in recent years as the programming consisted almost entirely of popular music. The Iranian authorities were probably of the opinion that the audience on short wave was minimal anyway. With the current unrest in the country I would guess that people are resorting to all possible ways of hearing the latest news and many would be turning to short wave radio now. Alan Holder, G4ZBH, Isle of Wight, U.K.``

There's a big discussion raging on X and threads about a young Iranian woman (based in Canada) who burns a photo of Supreme Leader Ayatollah Khamenei and uses the flame to light her cigarette. This powerful act of defiance – no hijab, openly challenging the regime and social taboos – has turned her into an ICONIC FIGURE for online supporters of the Iranian resistance and their opponents who cry that this video shows a Jew dong that ("keyboard warriors"). She is an Iranian feminist.

The video (originally inspired by 2022 protests, but this version exploded around January 9, 2026) is going massively viral right now, with millions of views across platforms, widespread media coverage (Daily Mail, NDTV, Euronews, Times of India, etc.), and huge engagement on social media. Here are the key links:
Video: https://x.com/i/status/2009614783134449688
Photo: https://x.com/melianouss/status/2009161771110862931
Pic From the woman`s X page. It ties perfectly into the current wave of protests in Iran over economic issues and freedom demands and already has been adapted and adopted by many people in both networks with picture derivatives as a flag or banner of the revolution`` -- Zacharias Liangas (via Glenn Hauser, WOR)

** IRAN [non]. 13784.986, Jan 13 at 1624, talk presumed Persian and

music bits, S8/S9 with fading into UTwente, no jamming audible, 1630 R. Farda ID in passing. Almost faded out by 1640. Contradictory schedules have emerged since my last report, but here it is now, presumably via offfrequency UAE site. Own website claims 13765, not 13755:
https://www.radiofarda.com/a/28949345.html
(Glenn Hauser, OK, WOR)

** MEXICO. 940, Jan 12 at 0715, wild ``La Q`` IDs a few times, ``La Cuuuuuuuuu!``, finally as plain XEQ. It`s 30/30 kW in CDMX. Not always dominant like now (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, Fri Jan 9 at 0816, some really weird music, S3/S4 from the SSOB if not the OSOB, RNZP. Sked shows during this hour: ``9:00 PM. The Wantok Program --- 30 minutes of news and current affairs from ABC Australia from Monday to Friday in Papua New Guinea Tok Pisin, Solomon Islands Pijin and Vanuatu Bislama pidgin languages.`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 AM, Jan 11 at 0358 past 0400 and still 0411, pirate music atop weak KCRC 1390 X5 harmonic, OPOB. These say it`s R. Free Euphonia:
https://www.hfunderground.com/board/index.php/topic,156960.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Jan 11 at 0402, undermodulated JBA S9 thintonations of Josiah on anti-Christ pirate Station YHWH (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Oklahoma Operations Secure HF Net, or something like that, fires up Wed Jan 14 at 1500; also heard Jan 7, so apparently it`s *every* week except for holiday breaks. NCS is WPFY731 in Seminole. Making a rollcall, pronouncing every call sign twice with fonetik letters, as I hasten to copy without recording backup, so maybe still some errors also due to my scribble. Mostly no reply, u.o.s.; I have to semicolon them since some quoters erase linebreaks.
WPQY443, where?;
WQZT582, Broken Arrow;
WQSY836, EOC?;
WNPV700, Durant, Bill chex in, no traffic; better sig than NCS;
WQYW883, Moore EOC, Gaylon ans;
WNUW216, OKC;
WNUW215, Ponca City;
KNGR728, Pontotoc County, Chad ans;
WNUW212, Pottawatomie? County;
WSHM692, State of Oklahoma;
WNBM839, Stillwater;
WNCH624, Tulsa County.
Concludes at 1507, but open for anyone else? Yes, WNBE830, Jefferson City MO. 1508 summarizes that got only 3 replies; 1509 WPFY721 clear. From the above lineup I realize that they are called in alfabetical order by location. I assume that when we have a real emergency, 5140 USB would become very active (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1, Jan 8 at 0435 UT, low-power in central Enid is undermodulating again, Xmasmx; while I am checking for Es FM DX as on maps, but skipping over/beyond me (Glenn Hauser, OK, WOR)

** OKLAHOMA. 93.1, Jan 14 circa 2045 UT, the occasionally modulated deadair in central? Enid is finally off the air, while 95.1 remains (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5, Jan 9 at 2007 UT, as I am in the vicinity of S Cleveland and W OK Garriott in Enid, the LPFM transmitter is still on the air with stereo pilot, but no music, modulating only a big hum

seemingly in mono (Glenn Hauser, Enid, WOR)

** PHILIPPINES. 9310, Jan 14 at 1530, USAGM in Korean via Tinang site, VG S9+25 way over here beyond. Now it`s a half-hour M-F, same 10-minute Trumpcast thrice (Glenn Hauser, OK, WOR)

** POLAND [non]. 7570, UT Sun Jan 11 at 0406, news in English about Ukraine, clips of Kushner et al., pronouncing Zelensky as if the L were crossed, = ``W``, a dead giveaway to Polish accent, and indeed it is the announcer with a distinctive voice and accent in English from PRES as sked daily 0400-0500 on WRN. WRMI-5 7570 xmtr sked atop indeed shows System E WRN during this hour. But the System E grid omits it among many other frequencies this hour, instead pretending that 7570 be on System C with `Legends` this hour! Something`s odd at Okee (Glenn Hauser, OK, WOR)

** SOLOMON ISLANDS. 5020, Jan 10 at 0714, JBA carrier, despite 5025 Cuba still on, presumably SIBC. Also 5040 VANUATU (Glenn Hauser, OK, WOR)

** SPAIN. If it`s Tuesday, Jan 13, there must not be English from REE but in case it happen 24 hours later I check reception direct at 2257: 9690 JBA, 12030 & 17715 JBA carriers, 17755 JJBBA carrier (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Jan 14 at 2300, token English from REE succeeds, S9+25/40 into Georgia SDR; 12030 for ME was earlier reported off but JBA; while 17715 is a JBA carrier. Previews some topix including diagnostic research. Crosstalk QRM evidently Spanish ambience we don`t want or need, likewise continuous musical background during news summary of the week from 2302. While the heavy accents of both announcers are tolerable, their breakneck speed is mentally tiring. That`s what we get for one program a week: cram into it as much as possible. Lebanon correspondentess finished at 2320. But I`ve too much news from other sources to follow (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Jan 9 at 2300, JBA direct, VOT or is it China? At 2317, S9+30/40 into UTwente on 5960.002+, English about Maduro, so VOT is not off the air, but 6CI underaudible (Glenn Hauser, OK, WOR)

** TURKEY. 9660.007, Sun Jan 11 at 1741, VOT English, S9+15/25 into UTwente, tuned in early enough this week as `Letterbox` starts immediately after the news. First, Cemre says that 7 January was a very special occasion, 63rd anniversary of VOT from 1963y; reaches 85 countries on SW. Come on, powerful SW transmitters can reach *every* country sooner or later; have heard from listeners in only 85 countries over 63 years?? 1) Mr --? Albanese, Palermo, Italy, heard Italian on 11970 - so why is he writing in English? Has not been getting his QSLs. 2) Siddartha Papajarjee, West Bengal, how is New Year celebrated? Big events in Istanbul. Not getting his QSLs either. 3) Jayanta Chakraborty, New Delhi, found out what Cemre name means: heavenly warmth, arrival of spring. 44444 on 6125 - again unremarkable that he keeps hearing the N American, not S Asian frequency at 0400. Temp in Ankara plunged to -12 C. 4) Alan Roe, UK, enjoyed holiday special programs such as on NYE. Is a 10-minute walk from River Thames. 5) Anatoly Klepov, Moscow, wants another QSL. 6) David Ortiz Martínez, García?, Nuevo León. She addresses him as Mr. Martínez instead of Mr. Ortiz. 7) Finally, Bob Jenky?, Tomball TX. About QSL delays, they are addressing the backlog. 1806 theme. 1807-1809, multi-lingual ID filler reel, 1809 `Economic Diary` (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960.000, Jan 11 at 2349, only Chinese into UTwente, S7/S9. Couldn`t be VOT on so accurate a frequency. Something`s always erroneous at Emirler. Nor on accidentalternate 9610. Nor at a cursory

check earlier in hour (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Jan 13 at 2257, no signal direct from VOT English. But it`s on at next check 2318, S9/+10 but insuff vs noise level (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002, Wed Jan 14 at 2257, VOT IS & English IDs, S9+25/30 into UTwente, 2300 sign-on as if it were 1330 on 13635: something`s always awry at Ankara. But Spain`s only English broadcast clashes so they get my attention for a while. 2354 s/off the `1330` broadcast, 7 notes of IS before chop by 2355* uncovering much weaker ChiCom music (Glenn Hauser, OK, WOR)

** U S A. A few ND beacons JBA now but not always, vs noise level:
245, Jan 14 at 0713, FS, 100 watts at `Rokky` Sioux FallS SD
344, Jan 14 at 0715, JA, 400 watts at `Dinns` JAxonvil FL
359, Jan 14 at 0716, GGF, 0 {sic} watts at Grant NE, all per RNA
(Glenn Hauser, OK, WOR)

** U S A. 365 MCW kHz, Jan 12 at 0727 UT, AA, 100-watt NDB at `Kenie` Fargo ND, site really across in MN (Glenn Hauser, OK, WOR)

** U S A. 383 MCW kHz, Jan 11 at 0735 UT, CNP, 25-watt NDB at Chappell NE, which is on I-80/US 30 just across from the northeast corner of Colorado.

414 MCW kHz, Jan 11 at 0737 UT, GRN, NDB at Gordon NE. Both these were also heard Jan 5 during the same hour, not elsewhen (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed UT Thursday January 8 at 0030 on WRMI 9395, S9+25/40 into Georgia SDR.

Also confirmed UT Thursday January 8 at 0130 on WRMI 5010, after tune-in at 0125 during previous program, atop some musiQRM into Georgia and Maryland SDRs, but in the clear altho noisy direct S9+20/25. Normally no QRM; could be third harmonic of something on 1670, unlikely reactivation of Honduran altho still in Aoki, and certainly not long-gone Madagascar on 5010. Or overload into SDR but unlikely the same at two widely separated. Or possibly the previous program had music background.

Also confirmed Thursday January 8 at 1730 on SW Radio Gold, Germany, JBA S7 with ACI on 6160.005 into UTwente; and S9 clear on 3975.001

WORLD OF RADIO 2329 contents: Belize, Canada non, China, Colombia, Germany, Israel, Korea, Luxembourg, México, Netherlands, North America, (Philippines), Romania, Russia, Slovakia, Spain and non, Sudan non, (Taiwan), Turkey, UK, USA and non, Vatican non?, Vietnam; unID 810.58; propagation outlook - countries mentioned along with others not in order.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2329 monitoring: confirmed Friday January 9 at 2300 on WRMI 9955, S9+10/20 into Maryland SDR.

Also confirmed Friday January 9 at 2330 on SW Radio, Germany, 3975.002, S8/9+5 into UTwente.

Also confirmed UT Saturday January 10 at 0400 on WTWW 5085, S9+5 into NH SDR.

Also confirmed Saturday January 10 at 1537 the 1530 on SW Radio Gold, Germany, 6160.002- S9+5/15 with some ACI de 6165; and also on 3975.002, clear S9/+5 into UTwente.

Also confirmed Saturday January 10 at 1630 on WRMI 9955, S4/S9 into Maryland SDR. Next:

1700 UT Saturday WRN via WRMI 9395 to NNW;
1700 UT Saturday WRN via WRMI 7730 to NE;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2329 monitoring: confirmed Saturday January 10 at 1700 on WRMIs, 9395, S5/S7 into Maryland SDR; 7730 inaudible there despite closer to azimuth, but confirmed S5/S7 into Georgia SDR.

Also confirmed Saturday January 10 at new time 2030 on SW Radio Gold, Germany, 3975.003+ S7/S9 into UTwente.

Not yet Sat Jan 10 at 2030v on WA0RCR, 1860 AM, poorly audible into St Louis SDR but timed out too quickly, and not rechecked due to distraxion.

Also confirmed Saturday January 10 at 2030 on WRMI 9395, S6/9+5 into N9AZZ remote. I think it played again on same at 2100, as per unclear WRMI skedgrid.

And yet again on WRMI 9395, confirmed Saturday January 10 at 2200, S9+10 into N9AZZ remote.

Also confirmed Saturday January 10 at 2245 the 2230 on WRMIs, S9 on 17790 and S9+12 on 15770 both into Maryland SDR.

Also confirmed UT Sunday January 11 at 0030 on IRRS/NEXUS/IBA/IPAR/EGR webcast only.

Also confirmed UT Sunday January 11 at 0238 the 0230 on WRN N America stream. Just in case, checked all WRMI frequencies on the air, and not via a single one of them!

Also confirmed UT Sunday January 11 ending at 0501 UT on WA0RCR, 1860 AM, MO, S9+15 into Georgia SDR, so must have started about 0432; was JBA in HNL direct.

Also confirmed Sunday January 11 at 0730 on WRN via WRMIs: 5850 S9+30/40; 7570 S9+25; 7730 JBA; 7780 S6/S9. But NOT 15770, some other talk JBA, confirmed not // lower frequencies on second receiver:

WRMI website updated Jan 9 so maybe somewhat correct. Now shows WRMI-9 15770 on System H with RFE/RL 0730-0930. What language(s)? NO info. System H grid does not show 15770 after 0700. But System E grid, mostly WRN, claims WRN during 0700-0800 on 15770 and seven! lower frequencies. Odd.

WOR 2329 also confirmed Sunday January 11 the 1130 when I happen to

awaken at 1149, S9+30 on WRN via WRMI 7570, and JBA on 7780.

BTW, I had referred to 7570 as NW thisaway, but not exactly 315 degrees like on 5850 and 9455, rather 285 degrees ~ WNW. Let`s sort WRMI frequencies by azimuth:
 44: 7730, 15770
160: 9955, 5050, 5800
181: 5010
222: 7780
285: 7570
315: 9455, 5850
355: 9395, 5950
That`s 12; Xmtr #1 is blank. WRMI-7 on 17790 does not specify an azimuth, just ``SAM/AFR``. It used to be 160, and still is per HFCC. WRMI never replaced/repaired its only African antenna which IIRC was 81 degrees, a long way from 160. Africans must listen to whatever they can get off the side. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;

1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2329 monitoring: confirmed Sunday January 11 at 2000 on IRRS SW via AM Italia, 1322.993, S9+12 into nearby Noale SDR. No signals on 918 nor 207 kHz possibilities.

Also confirmed Sunday January 11 at 2100 on WRN Europe stream.

Also confirmed Sunday January 11 at 2230 on SW Radio Gold, Germany, 3975, JBA S5/7 noisy into NW Ireland SDR after no signals into UTwente or Bedford.

Also confirmed Sunday January 11 at 2337 the 2330 on WRMI 9455, S9+15/22 into N9AZZ IL remote.

Also confirmed UT Monday January 12 at 0000 on WRMI 9395, S9+10/12 into N9AZZ IL remote.

Also confirmed UT Monday January 12 at 0030 on WRMI 7780, S9/+10 into N9AZZ IL remote which is miscalibrated. WRMI frequencies are always almost spot-on but it shows -52 Hz. On same SDR I check WWV: 5000 shows minus 33.5, and 10000 shows -67. So an error of -52 is just about right, slightly above halfway between those WWVs.

Confirmed UT Monday January 12 starting early 0358 on Area 51 via WBCQ 5130 -89 Hz = 5129.911, S7/S9 into Maryland remote, after ``WDCD`` program IDs over and over. ``W.D.C.D. Radio - a wonton {sic} display of control and disruption``. But WBCQ *must* sign-off 5130 at 0400 sharp no matter what, so I am chopped off, but continue on webcast.

Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2329 monitoring: confirmed Monday January 12 at 2032 the 2030 on SW Radio Gold, Germany, JBA but myself recognizable, on 3975 into Noale, Italy SDR which I normally use to check AM Italia, after no signals into UTwente, UK or Ireland SDRs.

Also confirmed UT Tuesday January 13 at 0330 on WRMI 7780, S9+12 into S Texas SDR.

Also confirmed Tuesday January 13 at 1424 the 1400 on WRMI 9955, S7/9+10 direct.

Also confirmed Tuesday January 13 at 1500 on WRMI 9955, S9 direct.

Also confirmed Tuesday January 13 at 2100 on IRRS SW via AM Italia, 1322.998+, S9 into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2329 monitoring: Confirmed UT Wednesday January 14 at 0030 on SW Radio Gold, Germany, 3975, S5 into Carlow, Ireland SDR, but faded to JBA by 0056; after no signals into UTwente, Bedford.

Confirmed UT Wednesday January 14 at 0130 on WRMI 9395, JBA into N9AZZ IL remote, but with huge wideband local noiseburst QRMs; after no signal into Georgia SDR.

Also confirmed Wednesday January 14 at 2030 on SW Radio Gold, Germany, 3974.999, S2/S4 into Carlow, Ireland SDR and mostly readable after no signal into UTwente, and JBA into Bedford UK.

Also confirmed Wednesday January 14 at 2200 on WBCQ webcast; and at 2220 poor direct on 7490-. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

As a noncommercial public service program, financial support appreciated. Thanks this week to Chris Krug, Tulsa OK, for a contribution via PayPal to woradio at yahoo.com, and says, ``One news source has remained constant since I entered the SWL hobby in the

1980's --- Glenn Hauser's WOR! Thanks so much for your unrelenting devotion to our hobby. I wish you all the best!``

One may also contribute by MO or check on a US bank to
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. At 0305 UT Jan 12, I notice the lowest WRMI frequencies are missing, no signals into W8BUG Knoxville remote on 5050, 5800, 5850, 5950. I was wanting to hear `Encore` on 5950. Propagation somewhat degraded but still well audible on highest channels 9395, 9455, 9955. At 0346 direct, the normally strongest, 5850 is definitely off, JBA carrier on 7730 but nothing on 7570, 7780. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** U S A. Re WRMI 5, 7 MHz frequencies missing: -- just got this from Jeff: ``I just landed in Los Angeles on my way to the HFCC in Malaysia. ** U S A. Pre-`AAAWWW` chex of WBCQs, UT Sat Jan 10 at 0057 into Maryland SDR: 3265 no signal. 5130 in The Planet ID & IS loop. 6160 JBA. 7490 FKB. 9330 WLCR. By 0100, No disclaimer as repeat! and Wm Tell Overture theme on 5130 -66 Hz = 5129.934, S7/S9 and preferably on webcast of 7490, opening comment ``Absolutely amazing this radio thing  we do--``, and one-word interjexion during pause in theme, ``blaze``? Then a song but some audio dropouts. Says shortwave is ``fancy AM``. They are back after a bit of hiatus --- yes, it`s been a few weeks of repeats since the last new one. Angela is beautiful. Quadricasting on 9330, 7490, 6160, 5130 -and- LBS = laser broadcasting system into space with hi power on 535 nanometers, where the FCC has no jurisdixion. So there`s the answer to WTFK? Except how do you convert that to #Hz? 0121 Allan is getting over the flu. 0123 datestamp as 9 of January 2026, but for once he doesn`t qualify it as ``YOOLF``. A&A are in Studio 9 in Deland of Fla. 0133, 3265 is available but not fired up all the time. Radio Angela has been cut back to only 7-10 pm EST on 6160 {00-03 UT; initially 24h, then only 23-08, then this: indeed no signal on 6160- at 0408 into NH SDR}. 0137 some hard rock, 0140 outro as ELO. 0141, Allan has been coughing and often hitting the cough-switch-mute. Angela is often muttering off-mike, apparently to him rather than to the audience; but they were not fiddling with her mike at the outset. Socialism is bad: look at Venezuela. 0143 reading an article about collectivism. How could NYC elect a ``democratic socialist`` -- there is no such thing {O yeah? Check out Scandinavia} 0153 outro as by Dr Earl? Patterson, CEO of Victims of Communism? Memorial Foundation. 0156 a few emails. 0200 next program is ``Living by the Sword`` -- starting with gunshots! (Glenn Hauser, OK, WOR)

** U S A. 9330, Jan 13 at 2310, NO signal from WLCR/WBCQ. Must be off the air, what`s wrong? 9265 WINB is there, and 9395 WRMI, etc. (Glenn Hauser, OK, WOR)

** U S A. World`s Last Chance bankrupt so WBCQ 9.330 MHz off --- ``Hello Glenn, The Worlds Last Chance ministry has apparently gone bankrupt and has abandoned shortwave radio and WBCQ. The following message is now posted on wbcq.com:

`Superstation available --- One of the most powerful and versatile shortwave stations is now available for your lease. The Monticello Maine Superstation operating on 9.330 MHz with up to 500 KW of power with its fully rotatable antenna system can put a shortwave signal anywhere in our world. Contact WBCQ at (207) 889-0039 for this unique

opportunity.` Regards, Lw`` (Larry Will, Area 51)

Bill Tilford, IN: ``An ironic aspect of their radio setup was that in recent times, that 500kw rotatable was aimed at Brazil, the UK, the US and Canada. All dressed up with no place to go so to speak. If the proposed refunding of the USAGM family really happens, maybe Uncle can lease some time on it.``

``Good point, Bill. It has excellent reach. Perhaps even RCI. Sackville was only a "stone`s throw" away from Monticello. Practically in Canada already. 73, Walt`` Salmaniw, BC

``I reached out about leasing time for Pop Shop Radio. Allan says he is looking for "long term program leases" -- 12 hours a day on 9330. That shoots that for me! Tony Pavick, BC``

9330, Jan 14 at 1531, still no signal from WBCQ/WLCR.

Website still shows 9330 but headed by: ``Beloved of Yahuway {sic}, The Non-Profit WLC Ministry is currently facing growing financial challenges, which have unfortunately led to the suspension of several projects...`` It remains an ``online ministry``.

WLC bankrolled most? of the cost of setting up the 500 kW `SuperStition`, and thus had rights to all its airtime, altho allowed AAAWWW one hour a week. So what exactly is the ownership now? Do they still have any stake in the facility? Or is it 100% owned by WBCQ? (Glenn Hauser, OK, WOR)

** U S A. 5890, Jan 8 at 0726, WWCR-4 unexpectedly on air at this hour with strange rappish singing, S9+20/30, and 0730 opening `The Reality Hour` with a gospel huxter. Also producing leapfrog mixing product another 45 kHz beyond 5935 WWCR-2, JBA on 5980. WWCR-4 program sked dated Jan 1 still claims 5890 on air *only* at 03-05 UT Tue-Sat. `The Reality Hour` appears nowhere on WWCR program skeds.

However, `The Apostle White Reality Hour` is or was on WWCR`s AM station, WNQM, also their WITA in Knoxville. WNQM does not provide a program schedule but a list of shows
https://www.1300wnqm.com/pgm-links_wnqm.html
including this one on weekends with Ezzie White, but this link does not work:
http://web.me.com/realityhour/Site/About_Me.html
But this one does, found originally in broad search, not via WWCR/WNQM:
https://theapostlewhiterealityhour.libsyn.com/
It`s a large archive of podcasts starting with recent ones. And says also on WNQM at different time. So, will this expanded use of 5890 continue, and how much? (Glenn Hauser, OK, WOR)

** U S A. 5890, Jan 9 at 0807, no signal from WWCR-4, contrary to last night surprisingly on air at 0730 (Glenn Hauser, OK, WOR)

** U S A. 5085, Jan 14 at 0318, no signal from this WTWW, still sporadic. Prop OK with 5050 WRMI, huge 4840 WWCR. 5085 sked should be at least 0100-0400 (Glenn Hauser, OK, WOR)

** U S A. 7505, Jan 12 at 0535, S7/S8 dead air, presumably WRNO; I did notice it in Hindi earlier after 0400 (Glenn Hauser, OK, WOR)

** U S A. 980 kHz, Jan 11 at 0339 UT, romantic Spanish song -- make that SS:REL since the romance is with Cristo; instead of usual dominator KMBZ Kansas City in somewhat auroral conditions. Likely KQUE Rosenberg-Richmond = Pasadena TX >Houston, R. Aleluya, U4 5000/4000 (Glenn Hauser, OK, WOR)

** U S A. 1030 kHz, Jan 11 at 0800, KTWO ID, Casper WY, Fox `news` with immediately obvious far-right slant. No longer blocked by WGSF but see unID 1030 (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, 0735 UT Jan 9, C&W music atop the rest, presumably KLEY Wellington KS, back to modulating usual day power 250 watts at night, after absence or negligible night power recently (Glenn Hauser, OK, WOR)

** U S A. 1340 kHz, re Spanish religious unID, Greg Hardison replies: ``Glenn: -- "UNIDENTIFIED. 1340 kHz, Jan 11 at 0335 UT, ``Holy3`` in Spanish..." I could be talked into placing a Wild Card bet on KCCE, San Angelo, "Red de Radio Amistad", per MW List. Just sayin'. 73z de the other G H``. Nothing about Spanish in NRC AM Log, just REL. But checking radio-locator link to stream at 1615 UT Jan 12, ``Aleluyas`` and preaching in Spanish. That certainly fits. WTFDA FM DB for the FM it relays, KSAO 93.9 is likewise clueless about it really being in Spanish! (Glenn Hauser, OK, WOR) see unID 1340 below

** U S A. Re 1480 unID, R. Vida: ``A Facebook video posted yesterday led me to the following web site for Radio Vida 1480 AM Houston. Unlike various other Radio Vida sites, it appears to be current:
https://www.arca7.com/radio-vida-1480-am/
73 Tim Hall`` (Glenn Hauser, OK, WOR) see unID 1480 below

** U S A. 1700 kHz, Jan 9 at 0730 UT, open carrier atop the rest, presumably KKLF Richardson TX, which has been problematic (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, Jan 11 at 0329 UT, KKLF Richardson TX back in shape, VG romantic song in Spanglish, dominant with negligible QRM (Glenn Hauser, OK, WOR)

** VANUATU. 5040, Jan 10 at 0714, JBA carrier, presumably R. Vanuatu now here; also 5020 presumed SOLOMONS (Glenn Hauser, OK, WOR)

** VATICAN. 15595, Jan 8 at 0738, VR in French is S9 direct from SMG, the SSOB by far, nothing else from Europe, despite targeting ME in the opposite direxion. 15595 per EiBI is on air Mon-Sat 0700-0745 in a mixture of Italian, Arabic, English and French (Glenn Hauser, OK, WOR)

** VATICAN. 13830, Jan 14 at 1535, VR S9+15/25 direct // 15565 equally strong, and NO other significant signals from Europe on either band. They may and do use Madagascar relay at times, such as after 1600 on 13830, not 15565, but registered at SMG on both before 1600, Amharic daily. After 1600 in Swahili, the two should be unsynchronized (Glenn Hauser, OK, WOR)

** VENEZUELA [non]. A quick check of the 16 possible military frequencies in Gilles Letourneau`s CIDX Messenger column, Jan 11 at 0346-0348 direct, hits no activity; need a lot more patience, but here`s the list in order: 7516, 7849, 8060, 8184, 8260, 9795, 10600, 11155, 11601, 11625, 12161, 12191, 13449, 13500, 14569 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 711 kHz, Jan 12 at 0542, het upon 710 KGNC/KCMO. Could be one of those Cuban Rebelde variants, or 300 kW ``MOROCCO`` from Western Sahara, a TA which has a better chance of propagating than anything else. No JBA carrier on 1141 now from Cuba, nor recently (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.51, Jan 11 at 0343 UT, JBA carrier hetting 810.00 WHB. I do not hear it every single time I tune across 810 at night

(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1020 kHz, Jan 12 at 0709 UT, some Spanish praising, ``alabad`` audible vs KOKP & KDKA normally dominant, probably KCKN, R. Visión Cristiana, Roswell NM; NRC DX News reported Dec 30: ``KCKN NM Roswell – Granted STA extension, U4 30000/50000, night pattern 24 hours`` - it`s almost same as day pattern, but major lobes to NW and South, pulled in to NE but not a notch: https://radio-locator.com/cgi-bin/pat?call=KCKN&service=AM&h=N There are three other USSS but not REL: KTNQ Los Ángeles, KMMQ Plattsmouth NE, both with 50 kW transmitters, and KDYK Union Gap WA (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1030 kHz, Jan 11 at 0338 UT, WGSF Memphis evidently back in whack, no longer dominating nights in Spanish, rather C&W in English, brief YL plug for ``ag updates in the mornings`` - Ha, the only explicit C&W listed is WYCZ White Bluff in further TN, U2 1000/250, but I bet it`s closer KBUF Holcomb KS, U2 2500/1200, ``The Ag Leader`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1181.04, Jan 13 around 0445, JBA carrier hetting 1180 signals; heard on one receiver but not another, even with TV off. At 0719 not audible with TV on. Could still be a birdie from some local device, but `logged` here in case of further receptions. Nothing this far off in mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1340 kHz, Jan 11 at 0335 UT, ``Holy3`` in Spanish, i.e. ``Santo3``, about equal to another GY in English above pileup. There`s an SS in OK, two in KS, but not SS:REL - closest one is KVTV El Paso TX 1000/910 watts, R. Victoria, and very few SS:RELs further (Glenn Hauser, OK, WOR) Reply: see USA 1340 above

UNIDENTIFIED. 1480, Jan 11 at 0809 UT, Spanish, ID as Radio Vida, Nuevo Laredo, Tamaulipas. Trouble is, there is no 1480 in NL, nor in plain Laredo, Texas. NRC AM Log shows KLCL Pasadena TX = Houston is a Radio Vida, U4 5000/500. Station list at https://radiovida.com/about/ does not include anything on 1480! Flagship is KRGE 1290 Weslaco TX. HOWEVER: tho not on own affiliate list, broad search and NRC AM Log show KLNT Laredo TX as Radio Vida, but it`s on 1490. I`m quite? sure I was on 1480, but dozy (Glenn Hauser, OK, WOR) reply: see USA 1480

UNIDENTIFIED. 1600 kHz, Jan 11 at 0332 UT, talk unseems English, Spanish nor Vietnamese, but can`t recognize in QRM. Whence could it be? Normal dominator at night is Hallelujah KATZ St Louis, but condx are somewhat auroral. NRC AM Log has some Asian or ETHnic stations which could be anything, but not around here: in CA, CA, MA, WA - or maybe Cajun from KLEB Golden Meadow LA, 60 watts at night? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4453.80, Jan 12 at 0743 UT during routine bandscan at this spot, a CODAR ID fires, twice, but Morse code too fast for me to copy; starts with WR-----. Probably audible over entire bandwidth of this CODAR but no time to explore! These occur thrice per hour 20 minutes apart, so in this case at :43, :03 and :23.

EiBi lists only 4 CODARS:
4540 0000-2400 USA WRPW597 CODAR (IDs x3) Car sm
4750 0000-2400 USA WRPW597 CODAR (IDs x3) Car sm
4775 0000-2400 USA WRPV785 CODAR (CW IDs) WNA ud
4810 0000-2400 USA WRPD292 CODAR (CW IDs) WNA ob

sm-University of Southern Mississippi, 3 tx sites: Destin FL 30N23-86W26, Gulf Shores AL 30N15-87W40, Pascagoula MS 30N20-84W34

ud-University of California Davis, 5 tx sites: Bodega Bay

38N19-123W04, Fort Bragg 39N26-123W49, Point Arena 39N56-123W44, Trinidad 41N04-124W09, Samoa 40N46-124W13 {Samoa: NOT Pacific island}

ob-San Luis Obispo, CA, 3 tx sites: San Luis Obispo 35N13-120W52, Ragged Point 35N47-121W20, Vandenberg 34N35-120W39
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4511 USB, Jan 12 at 0745 UT, weak 2-way in unID language. UDXF Fq List shows CAP nets, or 4XZ Haifa Israel in CW
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6897-6952 approx., Jan 14 at 0727, multi-carrier, multi-tones beating against each other, peaking S9 circa 6938, showing total disrespect for the Pirate Band; what is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.00, Jan 10 at 0225, S7 of open carrier dead air, except for JBA clix every three seconds. They are also JB detectable beyond the bandwidth of the DA down to minus 13 kHz, 9223. Probably also up to 9249 but obscured by othersigs. One of those mysterious signals always ending in -6, not always clickaudible. Last time I logged this one was Nov 17 at 0635. What is this? (Glenn Hauser, OK, WOR)
